EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Christian Heausler on January 12, 2005.

The application has been amended as follows:

Claims 1 – 20 are canceled.

In claim 21, lines 11 – 12, the phrase "is adapted for crossing a blood brain barrier," has been deleted.

In claim 25, line 1, the phrase "further comprising the step of using" has been deleted and --wherein-- has been inserted in its place.

In claim 25, line 2, the term "as" has been deleted and the term --is-- has been inserted in its place.

In claim 28, line 1, the term "using" has been deleted and the term --applying-- has been inserted in its place.

In claims 28, line 2, the phrase "is used to place the supplement" has been deleted.

2. Applicant has not complied with one or more conditions for receiving the benefit of an earlier filing date under 35 U.S.C. 120 as follows:

An application in which the benefits of an earlier application are desired must contain a specific reference to the prior application(s) in the first sentence of the specification or in an application data sheet (37 CFR 1.78(a)(2) and (a)(5)). The specific reference to any prior nonprovisional application must include the relationship (i.e., continuation, divisional, or continuation-in-part) between the applications except when the reference is to a prior application of a CPA assigned the same application number. The reference should also include the status of the prior application.

3. This application repeats a substantial portion of prior Application No. 09/915,470, filed July 26, 2001, and adds and claims additional disclosure not presented in the prior application. Since this application names an inventor or inventors named in the prior application, it may constitute a continuation-in-part of the prior application. Should applicant desire to obtain the benefit of the filing date of the prior application, attention is directed to 35 U.S.C. 120 and 37 CFR 1.78.

It is noted that applicant has included the required paragraph in part, however it is not the first sentence of the specification, and it is not presented in an application data sheet. It is further noted that the paragraph does not identify the status of the prior application.
